EDUCATION

B.Tech in Computer Science and Engineering

Rajarambapu Institute of Technology (RIT), Islampur, India

2023 – Present | CGPA: 8.62

PROFILE

Computer Science Engineering student skilled in **Java**, **SQL**, **Database Management**, **Full-Stack Development**, and **Artificial Intelligence**. Passionate about building scalable software solutions, solving real-world problems, and continuously learning new technologies to grow as a Software Engineer.

EXPERIENCE

Vice President – CryptX Cybersecurity Club, RIT

2025 – Present

- Organized 2+ cybersecurity workshops and CTF competitions for 150+ students to promote ethical hacking.
- Led technical initiatives and coordinated activities with **20+ club members** and faculty mentors.

SKILLS SUMMARY

- Programming Languages** : Java, Python
- Web Development** : JavaScript, React.js
- Database** : MySQL, MongoDB
- Tools** : Git, GitHub, Kali Linux, VS Code

PROJECTS

1] Employee Task Management System

[Web-URL](#) [GitHub](#) Sep 2025

Technologies: HTML, CSS, JavaScript, Node.js, Express.js

- Built a full-stack web application for employee task assignment and progress tracking.
- Integrated **role-based authentication** and an interactive dashboard for productivity monitoring.
- Designed a responsive and scalable system architecture for **efficient task management**.

2] Krishiraj Pharmacy Billing & Inventory Management

[Github](#) July 2026

Technologies: Java, Swing, JDBC, MySQL, Barcode Scanner, GST Billing

- Developed a desktop-based pharmacy management system for medicine billing, inventory management.
- Implemented barcode scanning and automated GST invoice generation to improve billing accuracy.
- Designed modules for stock management, product tracking, and sales reporting using Java and MySQL.
- Built an intuitive user interface with Java Swing and integrated database operations using JDBC.

3] CampusLink – Engineering Student Networking Platform

[github](#) Feb 2026

Technologies: MongoDB, Express.js, React.js, Node.js, Socket.IO, JWT, Tailwind CSS

- Developed a MERN-based networking platform for engineering students with secure authentication.
- Built real-time chat, communities, events, and social feed using Socket.IO.
- Designed a responsive UI with student verification and scalable architecture..

CERTIFICATIONS

- AI for Future Workforce Program: Intro to AI & Applied NLP** – [Intel](#), Dell, RIT (Aug 2024 & Apr 2025)
- Cybersecurity Virtual Internship** – [Palo Alto Networks](#), AICTE, EduSkills (2024)
- Programming with Java** – Amazon, [Coursera](#) (May 2025)
- Zero Trust Cloud Security Virtual Internship** – [Zscaler](#) (JAN-MAR 2025)
- Database Management Systems (NPTEL Course)** – IIT / [NPTEL](#) (2025)

ACTIVITIES

- Participated in **AI for Future Workforce Program workshops**: Intro to AI (Aug 2024) & Applied NLP (Apr 2025) at RIT
- Built and deployed Generative **AI chatbot at NxtWave's** "Build Your Own AI Model" Workshop (Jul 2025)
- Attended **Applied AI Workshop** by Prof. Markus Graulich at RIT (Apr 2025)
- AI for Future Workforce Program (2-week program)** – Intel, Dell & RIT (Aug 2024)
- Participated in **Seaside Cybersecurity Competition** – Goa (Feb 2026)
